- Mr. Dave Saltich (504)678-5921 David.saltich@navy.mil

3-Year Aspiration Statement

- The Navy provides and fosters professional military training and education for all sailors throughout their careers
- Our people are fully aware and possess the skills to use our robust suite of learning technology tools
- Leaders continually leverage existing and emerging technologies to deliver and document the right training to the right sailor at the right time

ANYWHERE

Short-Term Objectives

- Short-Term Objectives
  - One Month
    - Analyze and identify “As-Is” and emerging capabilities & learning tools
  - Six Months
    - Deliver the knowledge necessary for sailors to use current and emerging capabilities and learning tools
  - One Year
    - Capture lessons learned and apply feedback to improve ability to use the learning tools

Summary of Specific Action Steps

- One Month
  - Analyze “As-Is” capabilities & learning tools
  - Identify emerging capabilities & learning tools
- Six Months
  - Identify / develop the method to deliver the knowledge necessary for sailors to use current and emerging capabilities and learning tools
- One Year
  - Capture lessons learned
  - Assess effectiveness of sailor ability to use learning tool

Post-Summit Support Needed From…

- CNRF
- NPDC

Specific Indicators of Success

- Each sailor possess the ability to use the learning technology tools
- Increased use of learning tools

- Unsure how to measure effectiveness of using these tools – any tie to readiness reporting?

Summary of Impact - Key Benefits of this Pilot

- Sailors will be fully aware and possess the skills to use our robust suite of learning technology tools.
